8.	A parent trigger policy allows parents of children at a low-performing public school to petition for some form of accountability action to take place. If parents representing more than half of the school's students sign the petition, then the local school board governing that school would take one of the following actions: convert the school into a public charter school; dismiss and replace the principal; dismiss and replace staff and teachers; or close the school and relocate enrolled students. 9.	A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a "school voucher" to pay partial or full tuition for their child's school. 10.	A "tax credit" allows an individual or business to reduce the final amount of a tax owed to the government. Some states, including Oklahoma, give tax credits to individuals and businesses if they contribute money to nonprofit organizations that distribute private school scholarships. A "tax-credit scholarship system" allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. In general, do you FAVOR or OPPOSE a tax-credit scholarship system? [PROBE: STRONGLY/SOMEWHAT]		
	1. Strongly favor	162	32.1

	4. Somewhat oppose	83	16.5
	5. Strongly oppose	77	15.2
11.	Another kind of tax credit- an individual tax credit- allows parents to get state income tax relief for money they spend on private school tuition, online learning, tutoring, and other educational expenses. In general, do you FAVOR or OPPOSE an individual tax credit? [PROBE: STRONGLY/SOMEWHAT]		
	1. Strongly favor	191	37.8

	4. Somewhat oppose	67	13.3
	5. Strongly oppose	101	20.0
12.	An "education savings account" – often called an ESA – allows parents to take their child out of a public school district or charter school, and receive a payment into a government-authorized savings account with restricted, but multiple uses. Parents can use these funds to pay for private school tuition, online education programs, private tutoring, or savings for future college expenses. In general, do you FAVOR or OPPOSE this kind of "education savings account" system? [PROBE: STRONGLY/SOMEWHAT]		
	1. Strongly favor	145	28.7
	2. Somewhat favor	136	26.9

	5. Strongly disagree	64	12.7

14.	Some people say that educational choice programs – such as vouchers, tax credits, and ESAs – give parents the power to choose the school that works best for their child and puts pressure on all schools to do a better job educating children. Other people say that educational choice programs rob public schools of the funds they need to improve and allow a select few students to get a better education while other students are trapped in their current schools. Which viewpoint comes closest to your own? [PROBE: STRONGLY/SOMEWHAT]		
	1. Strongly for Power to choose	186	36.8
	2. Somewhat for Power to choose	79	15.7

	5. Strongly Robs the public schools	141	27.9
15.	A proposal has been made to increase teacher pay in Oklahoma. Which view comes closest to your own? [READ & ROTATE]		
	1. Pay raises should be given based on the quality of each teacher’s work.	293	58.0
	2. Pay raises should be given to all teachers across the board.	201	39.8
	3. Pay raises should not be given to teachers.	7	1.4
	4. DK/Refused [DNR]	4	0.8
16.	A proposal has been made to move local school board elections to the general election date in November. Some people favor the idea; they say that many people currently are not sure when these elections are held, which results in low voter turnout and makes it easier for education interest groups to influence the outcome. Other people oppose the idea; they say that moving these elections to November would place them on a crowded ballot where they would get lost among other races, and would make the school elections more partisan. Do you FAVOR or OPPOSE the idea of moving school elections to the general election date in November? [PROBE: STRONGLY/SOMEWHAT]		
	1. Strongly favor	251	49.5
	2. Somewhat favor	77	15.3
	3. Neutral/DK/No opinion [DNR]	32	6.3
	4. Somewhat oppose	49	9.6
	5. Strongly oppose	98	19.3
