- 3. First, state question 788 would legalize the licensed use, sale, and growth of medical marijuana only in Oklahoma. Possession and use of marijuana is authorized through a medical marijuana license that is valid for two years, rather than by a prescription. An Oklahoma board certified physician must recommend the license using the same accepted standards for recommending other medications and must sign the application for the license.

Applications for individuals under 18 must be signed by two physicians and by a parent or legal guardian. The Department of Health also issues seller, grower, packaging, transportation, research, and caregiver licenses to those to meet certain minimal requirements. A 7 percent state tax is imposed on retail sales of marijuana. Unlicensed possession by an individual who claims to have a medical condition is punishable by a fine not exceeding \$400.
