	100.0	100.0	

Unweighted data represented is prior to any weights being applied. Weights are applied one at a time and not all weights are used, so long as the unweighted number falls within the margin of error of its corresponding strata. See front page of the topline document for details. Stratum, except for phone type, were determined using SoonerPoll.com's proprietary database of likely voters in Oklahoma which produces a demographic profile of the Oklahoma electorate. They are updated on a quarterly basis.
